PROJECT MILESTONE & ACTIVITY LIST

DATE	30 October 2022
TEAM ID	PNT2022TMID22303
PROJECT NAME	Fertilizer Recommendation System For Disease Prediction

MILESTONE:

- An AI-based crop yield disease prediction system will help farmers protect crops from various diseases by feeding the name of the affected disease to a machine learning algorithm while analysing a picture of the plant.

- Algorithm will give affected Disease Name and give solution for the disease. In this Project Milestone will be given the Best Solution for the farmer using the complete friendly and simple user interface web application to fetching the solution by own.

- In addition, process we are planned to add a valid Module that is Fertilizer recommendation for the Specific Disease. It can give both Artificial fertilizer and Natural Fertilizer in suggestion manner. These are the important points in a milestone for planning the project.

 In Project Management Planning is an Important task to scheduling the phrase of the project to the Team Member. In this Activity can shows the various activity are allocated and Done by the Team Members!

ACTIVITY LIST:

In Project we can Split into the Four Step of Phrases are

Phrase 1: Information Collection and Requirement Analysis.

Phrase 2: Project Planning and Developing Modules.

Phrase 3: Implementing the High Accuracy Deep Learning Algorithm to Perform.

Phrase 4: Deploying the Model on Cloud and Testing the Model and UI Performance.
